

Fractions quiz

Q U I Z

START

Question

1st answer

2nd answer

3rd answer

4th answer

After each answer has been given, the program check wether it is the right one or not.

When the program starts, the questions, answers and the number corresponding to the correct answer are read from the text file.

In the end, if the answer to a question is correct, a check will be displayed, else a cross will appear. Also, the percentage of correct answers will be shown.
