SIBIU

EUROPEAN UNIVERSITY CAPITAL

June 29 - July 4

SIBIU –EUROPEAN UNIVERSITY CAPITAL is a project with a syncretised and interdisciplinary character, based on an original and innovative concept, which aims to stimulate cultural excellence, to highlight the European dimension of culture produced in Sibiu and also to prove the active international role of Lucian Blaga University of Sibiu and its involvement in the local community issues. Spurred by the local, national and international partnerships of Lucian Blaga University of Sibiu, our project aims to gather under the umbrella of a series of manifestation reaching various thematic events (conferences, round tables, a theological summer school, an international poetry festival, two theatre performances, a concert of choral music), but subordinated to a single concept, which reveals the quality of the city of Sibiu of European university capital.

Specifically, our project will include nine events that will involve, aside from the LBUS organizers, 25 guests from abroad (academics, theologians, cultural agents with experience in the programs “European Capital of Cultural” etc.), 25 local guests (members of the Romanian Academy, academics, poets etc.) and other 150 participants from outside Sibiu. Also, we estimate that our project will have at least 1.120 beneficiaries.
